

Truth or Lie ?

**It takes a long time
to get asylum in
Germany.**

Truth

The asylum process takes many months.

Lie

You can get papers to work and live in Germany within one week.

How many months do you think the asylum process takes?

It usually takes six months for your asylum paperwork to be decided. During this time, you are not allowed to work.

And if you are from a "safe country" like Ghana, it is very likely that your application for asylum will be rejected.
