

Truth or Lie ?

**It can be hard to find
a job in Germany.**

Truth

Finding a job in Germany takes time and is not easy, since Germany already has many skilled workers.

Lie

You will find a job as soon as you arrive in Germany.

How easy it is to find a job in Germany?

That depends on your visa status, your level of education, and whether you speak German. Germany does not hire people without a valid visa. Many jobs in Germany require a high level of skill or education.

But there are of course sectors looking to hire. There is a website from the German Federal Employment Agency that lists all of these jobs. You can also post your profile there, so potential employers can find you.
